

## BRIEFING 11

## Welfare Facilities

Antvic provides welfare facilities on every site as required by CDM 2015. Use them, keep them clean, and report any problems.

### Provided on site

- Toilets and washing facilities with hot and cold water, soap and towels.
- Drinking water, clearly marked.
- A heated rest area / canteen for breaks and to eat and drink.
- Drying facilities and somewhere to store clothing and PPE.

### Keeping welfare safe and usable

- Keep facilities clean and tidy for everyone — clean up after yourself.
- Eat and drink only in the designated rest area, not in work areas.
- Wash hands before eating, drinking or smoking, especially after handling chemicals or dust.
- Report shortages (soap, water, paper) or breakages to the site manager.

### Your responsibilities

Good welfare protects your health and dignity. Treat the facilities and other users with respect and report any issue promptly so it can be put right.
